Types of Jaunt services

How to Ride with Jaunt

Unless on a CONNECT bus, each rider must have a profile/account with Jaunt to schedule a ride. Each ride is scheduled through our Reservations team. Call us, we can help!

Rider profiles can be set up by calling Jaunt and speaking to a Reservationist. Rural riders can get their account set up and rides scheduled on the same day while ADA clients will need to be certified through CAT first.

Reservations for rides can be made from 1 week to 24 hours in advance. Dispatch will try to accommodate rides requested on the same day but it is not guaranteed. Rides can be scheduled over the phone or by email (trips@ridejaunt.org)

ADA Rides with Jaunt

Americans with Disabilities Act (ADA) Complementary Paratransit Service is a transportation service designed for individuals with disabilities who cannot otherwise access CAT's fixed-route service. ADA Paratransit is a shared ride, advance reservation, origin-to-destination service provided by JAUNT on behalf of CAT. Passengers may use the service to travel to destinations within a three-quarter mile radius of CAT's fixed-route service (*see service area map on following slide*).

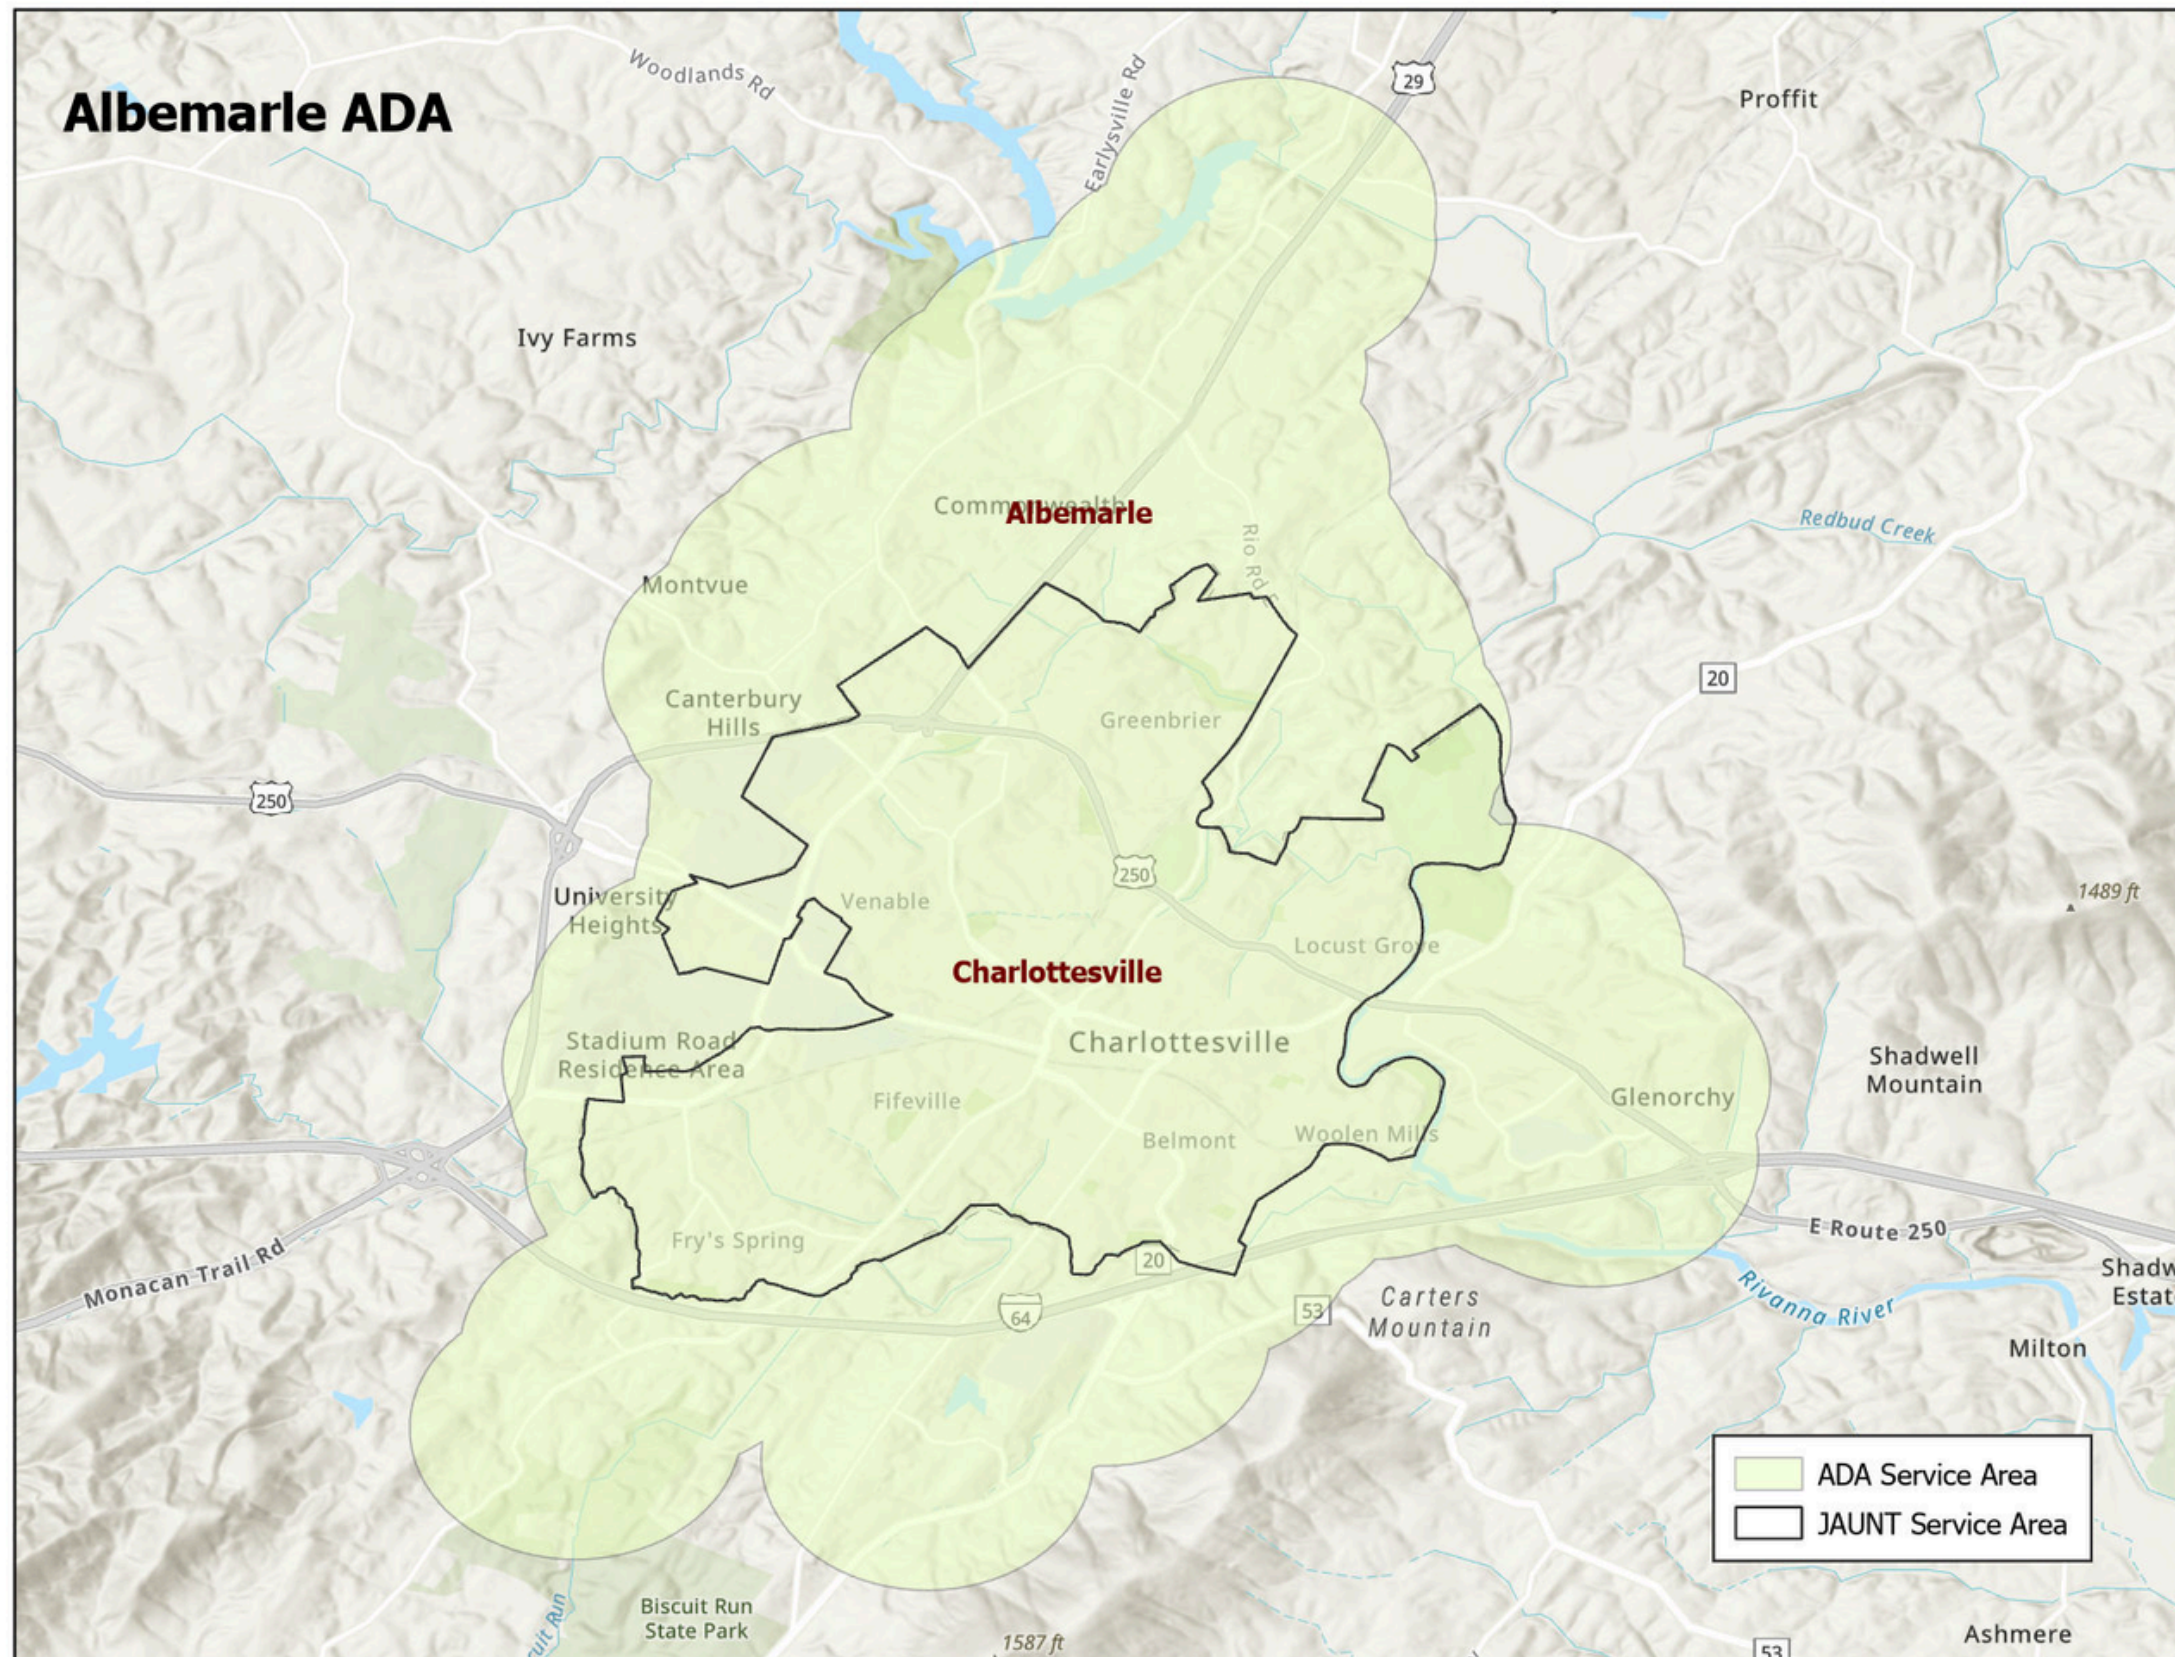

- Print out application on Jaunt's/CAT's website or pick up a hard copy from either office CAT or Jaunt offices.
- Send application in the mail to CAT or drop off at their office.
- Applications can take up to 21 business days to be approved.
- Jaunt is given updated lists of eligible ADA clients so they can schedule their rides.

www.charlottesville.gov/542/Paratransit-Services-ADA-Certified

ADA Service area is a $\frac{3}{4}$ mile buffer of all CAT fixed bus routes.

ADA service is limited to individuals with disabilities who:

1. Are unable to board, ride, or disembark from an ADA accessible vehicle without the assistance of another person (except for the bus driver and lift)
2. Could ride an accessible vehicle but the route is not accessible
3. Have a specific impairment-related condition that prevents them from traveling to or from a boarding or disembarking location
